

June 2025: Release notes

08/11/2025 7:18 pm EDT

Communicate

Email

- Product blocks on audience-driven transactional campaigns are now sent to [all customers](#), regardless of eligibility status.
- Transactional campaigns can now use [coupon codes](#).

Other feature releases

Exports

- You can add the campaign run ID, campaign run time, tracking parameters, variant ID, and bot click identifier [to specific exports](#).
- You can add GZIP compression to your [export file](#).
- You can now use [SSH key authentication for SFTP integration exports](#) excluding audience exports.

 Audience exports do not support SSH key authentication. Use password authentication for audience exports.
