

September 2024: Release notes

08/11/2025 7:17 pm EDT

Communicate

Email

- When viewing proofs, the **Preview and Test** button now contains the following: **Send Test Email**, **Test Across Email Clients**, and **URL Validation**. Previously, these were all separate buttons.
- There were improvements to the Campaign Summary for faster page loads.

Other feature releases

Experimentation Hub

The [Experimentation Hub](#) is now available as a central view to manage your campaigns' A/B tests and holdout groups.

Sign-in

[Bluecore's sign-in flow](#) has been updated to only request a user's email address on the first sign-in page. Once the email address is submitted, the user is directed to their sign-in flow.
