Q2: May 1 - July 31, 2018

09/19/2025 3:21 pm EDT

- Visual Template Editor Update (May 4)
  When adding dynamic product blocks in VTE, a clean blank space will now display instead of the word “none” when a product attribute is unavailable.
- Visual Template Editor Enhancements (July 12)
  Product attribute padding: The ability to control the padding for product attributes in product rendering widgets.
  New Dynamic Product Block: Because You Recently Viewed Styling: A new dynamic product block widget that best serves as a banner. It highlights a hero product and unlike other available dynamic product block widgets, it doesn’t have a call to action button.
  Pricing Display Enhancements: The ability to showcase original and sales prices within product widgets using before and after labels.
